### GENERAL REMARKS.

In regard to our doings for the year past, we have little to say, but perhaps a few remarks in the way of explanation may be in order. As was predicted in our last annual report, the expense of maintaining the town poor has been much less than in former years, and that of the fire department greater. In fact the expense of the last named department has been larger than anyone predicted. Soon after the Holton fire it was discovered that some of the flues in the steamer were defective. An expert machinist was procured and the steamer condemned. The firewards after due consideration and consultation with the selectmen caused the repairs to be made. When we stop to con-

sider that the boys saved us more at the time of the Holton fire than the whole department has cost for the year, they are deserving of our praise to say the least. The appropriation for putting a new foundation under the Ashuelot engine house proved to be inadequate, but believing that "whatever is worth doing at all is worth doing well," we went ahead and completed the job. Our attention has been called to the fact that the buildings on Ashuelot street belonging to the town are leaking badly, and we hope that articles 8 and 9 in the town warrant will pass. We desire to take this opportunity to thank the officers of all the other departments and all of our friends who have so generously co-operated with us in working for the public good.

At the October term of court the County Commissioners directed us to transfer to the county pauper list some persons who had heretofore been classed as dependent soldiers. This explanation will show why some names appear under both headings in this report.

---

The cemetery committee found last spring that in the Winchester National Bank was a balance to the credit of the cemetery committee of 1896, of \$17.01. That committee did not hold the office after that year, and so this balance was overlooked. This sum was placed at the disposal of your committee. About this sum, or a little in excess of it was expended last spring in resetting and righting up headstones which had fallen or were leaning. This was in the older part of the cemetery. Your committee trust that in the future this important work may be looked after each year. Many people who have lots in the front or south part of the cemetery having expressed a wish that the running water be piped to that section we recommend that a small appropriation be made for that purpose, probably \$50 would be sufficient. We would recommend some small cistern or receptacle be used for the water; not a trough for horses to drink from, simply water to use on the lots and for flowers being desirable. We would recommend that the same sum as usual, \$225, be raised and appropriated for care. Also that the sum of \$100 be appropriated for improvements, to be expended in fitting up another section for lots and improving the grass plots in the front part of the cemetery. Several parties have given to the town in years past sums varying from \$50 to \$200,

with the understanding that the interest on said sums should be used each year to keep their lots in good order. We feel that the town should at once decide upon some method of permanently giving these people just what they have paid for. There seems to be a feeling on the part of some people in town and some from out of town that they desire to have a sense of proprietorship in burial lots. Your committee would recommend that the town authorize the giving a quit-claim deed for lots to be used only for burial purposes, upon the payment to the town of a reasonable consideration.

Respectfully submitted,

A. J. HILLS,  
J. H. BLISS,  
F. D. LESURE,

REPORT OF  
TRUSTEES OF PUBLIC LIBRARY  
OF WINCHESTER.

---

The trustees of Winchester Public Library, in making this their eighth annual report to the town, desire to call attention to the fact that the library is being used more extensively every year, and that the scholars in our village schools are learning to appreciate more highly the value of so good a library near at hand for consultation. The reading room is also more generally patronized and has justified its establishment.

A large number of new books are about to be placed on our shelves, which will add much to the interest and value of the library.

During the year, portraits of Hastings Alexander and his son Charles, former residents of the town, have been presented to the library. It is hoped that ere long a beginning will be made in the collecting of articles of intrinsic and historic value for the enrichment of the library. We have remarkable facilities for the

exhibition of such a collection and they ought to be improved.

Respectfully submitted by the trustees.
